Prashant Jha

Battles of the New Republic Prashant Jha, 2014-01-12 Battles of the New Republic: A Contemporary History of Nepal is a story of Nepal's transformation from war to peace, monarchy to republic, a Hindu kingdom to a secular state, and a unitary to a potentially federal state. Part-reportage, part-history, part-analysis, part-memoir, and part-biography of the key characters, the book breaks new ground in political writing from the region. With access to the most powerful leaders in the country as well as diplomats, it gives an unprecedented glimpse into Kathmandu's high politics. But this is coupled with ground-level reportage on the lives of ordinary citizens of the hills and the plains, striving for a democratic, just and equitable society. It tracks the hard grind of political negotiations at the heart of the instability in Nepal. It traces the rise of a popular rebellion, its integration into the mainstream, and its steady decline. It investigates Nepal's status as a partly-sovereign country, and reveals India's overwhelming role. It examines the angst of having to prove one's loyalties to one's own country, and exposes the Hindu hill upper-caste dominated power structures. Battles of the New Republic is a story of the deepening of democracy, of the death of a dream, and of that fundamental political dilemma - who exercises power, to what end, and for whose benefit.

How the BJP Wins Prashant Jha, 2017-09 What's the secret of Modi's mass appeal? How does the RSS help at election time? Does communal incitement actually win votes? Why did Amit Shah's election maths fail him in Bihar? Prashant Jha answers these questions and more, dissecting the BJP's election machine with authority and insight

All Roads Lead North Amish Raj Mulmi, 2022-05-01 During the June 2020 territorial dispute over Kalapani, India blamed tensions on a newly assertive Nepal's deepening relations with China. But beyond the accusations and grandstanding, this reflects a new reality: the power equations in South Asia have been redrawn, to make space for China. Nepal did not turn northwards overnight. Its ties with China have deep historical roots built on Buddhism, dating to the early first millennium. While India's unofficial 2015 blockade provided momentum to the rift with Delhi, Nepal has long wanted deeper ties with Beijing, to counteract India's oppressive intimacy. With China's growing South Asian and global ambitions, Nepal now has a new primary bilateral partner-and Nepalis are forging a path towards modernity with its help, both in the remote borderlands and in the cities. All Roads Lead North offers a long view of Nepal's foreign relations, today underpinned by China's world-power status. Sharing never-before-told stories about Tibetan guerrilla fighters, failed coup leaders and

trans- Himalayan traders, Nepal analyst Amish Raj Mulmi examines the histories binding mountain communities together across the Sino-Nepali border. Part history, part journalistic account, Mulmi's is a complex, compelling and rigorously researched study of a small country caught between two neighbourhood giants.

The Frontier Complex Kyle J. Gardner, 2021-01-21 Reveals how British imperial border-making in the Himalayas transformed a crossroads into a borderland and geography into politics.

Self-Determination & Constitution Making in Nepal Surendra Bhandari, 2014-04-28 This book systematically analyzes why constitutions do not survive in Nepal, despite sixty years of constitutional history. The author discusses the epistemology of ethnic federalism in Nepal and examines the challenges of nation building and post-nation constitutionalism. The work addresses the connection between ethnic identity, right to self-determination, constitution making and state restructuring, offering possible ways forward for Nepal. Chapters consider lessons to be drawn from the past and examine reasons for the abolition of monarchy in Nepal. The book highlights the major problems that the first elected Constituent Assembly (CA) faced in promulgating a new constitution, before it was dissolved in 2012. The concept of right to self-determination and its complexities at the domestic level are all explored, along with ways forward to address the problem of constitutionalism, ethnic federalism and democracy. The author offers solutions as to how the second CA could address problems to promulgate a new constitution. The book elaborates on the role that constitutionalism plays in constitution making and the survival of a constitution. Scholars of politics and international studies, policy makers and those with an interest in law and constitution in Asia will all find this work of interest.

International Dimensions of Ethnic Conflict Madhumita Srivastava, 2001

A History of Nepal John Whelpton, 2005-02-17 A comprehensive and accessible one-volume history of Nepal, first published in 2005.

The Madhesi Upsurge and the Contested Idea of Nepal Kalpana Jha, 2017-03-20 This book is set against the burning issue of ethnic uprisings in the Madhes region of Nepal and analyses debates on the idea of contemporary Nepal. The limited view of Nepal as a primarily hill nation with Nepali-speaking people ignores the vast ethnic and linguistic diversity of the country. It has particularly rendered stateless the Madhesi community which inhabits the plains bordering India and shares closer cultural affinity and marital ties across the border. Increasing demands for ethnic and territorial autonomy by the Madhesis suggest the need for redefining the idea of Nepal and establishing Madhesi identity as Nepali identity while at the same time addressing the deeply contested idea of regional versus social identity in the region. This book uses narratives from the Madhesi community including from prominent Madhesi analysts and activists, to define their identity as well as their aspirations in a democratic Nepal. It also provides a perspective on the internal dynamics of caste and language of this region and their possible impact on consolidating ethnic identities in Nepal.

Global Corruption Report: Climate Change Transparency International,2013-11-26 The global response to climate change will demand unprecedented international cooperation, deep economic transformation and resource transfers at a significant scale. Corruption threatens to jeopardise these efforts. Transparency International's Global Corruption Report: Climate Change is the first publication to comprehensively explore such corruption risks. More than fifty leading experts and practitioners contribute, covering four key areas: governance: investigating major governance challenges towards tackling climate change mitigating climate change: reducing greenhouse gas emissions with transparency and accountability adapting to climate change: identifying corruption risks in climate-proofing development, financing and implementation of adaptation forestry governance: responding to the corruption challenges plaguing the forestry sector, and how these challenges need to be integrated into current international strategies to halt deforestation and promote reforestation. The Global Corruption Report: Climate Change provides essential policy analysis to help policy-makers, practitioners and other stakeholders understand these risks and develop effective responses at a critical point in time when the main architecture for climate governance is being developed.

No Law, No Justice, No State for Victims ,2020 It has been 14 years since the armed conflict between Maoist insurgents and government forces ended in Nepal. Tens of thousands became victims of enforced disappearances, torture, rape, and unlawful killings in the decade of fighting between 1996 and 2006. They are still waiting for truth and justice. There have been hardly any successful prosecutions since the end of the conflict for severe violations. Resistance to address past abuses has entrenched impunity in the present and, combined with a failure to ensure security sector reform, has led to repeated lack of punishment in cases of serious human rights violations which still occur in Nepal. In a mounting number of alleged extrajudicial killings by the police, custodial deaths allegedly resulting from torture, and shootings of unarmed protesters in recent years, the authorities refused to take action despite strong evidence. We conclude that failure to provide justice for past crimes creates direct and tangible harms in the present: families who lost loved ones years ago continue to seek justice and are forced to live without closure. And as new cases of abuse by the police show, impunity for past crimes means that unaccountable and abusive individuals and institutions continue to claim new victims in post-conflict Nepal.

Decolonised and Developmental Social Work Raj Yadav,2019-04-01 This is the first book to cover existing debates on decolonising and developmental social work whilst equipping readers with the understanding of how to translate the idea of decolonisation of social work into practice. Using new empirical data and an extensive detail of social, cultural, and political dimensions of Nepal, the author proposes a new model of 'decolonised and developmental social work' that can be applicable to a wide range of countries and cultures. By using interviews with Nepali social workers, this text goes beyond mere theoretical approaches and uniquely positions itself in a way that embraces rigorous bottom-up, grounded theory method. It will also further ongoing debates on globalisation-localisation, universalisation-contextualisation, outsider-insider

perspectives, neoliberal-rights and justice oriented social work, and above all, colonisation-decolonisation of social work knowledge and practice. It also promotes solidarity of, and the struggle for, progress for those in the margins of Western social work and development narrative through an emerging theory-praxis of decolonised and developmental social work. Decolonised and Developmental Social Work is essential reading for students, academics, and researchers of social work and development studies, as well as those striving for a decolonial worldview.

Global Corruption Report 2006 Transparency International,2005-12-20 TI has once again shown its ability to combine research and policy analysis not just to shine a light on the deeply embedded problems of corruption ... but to propose progressive solutions. Former World Bank President James Wolfensohn on the Global Corruption ReportIn the health sector, corruption is a matter of life or death. It can take many forms: from medical professionals who sell medicines or services that should be freely available, to high-level government officials who embezzle money from health budgets, to pharmaceutical companies that buy influence over research agendas. The impact of corruption is always felt by the end user -- the sick person who is forced to pay over the odds or who is given unsafe, counterfeit medicines. The 2006 edition of Transparency International's Global Corruption Report shows the impact that corruption has on health care in rich and poor countries. From high-level bribery in Costa Rica to informal payments in Hungary, case studies from around the world explore the characteristics of the health sector that make it so prone to corruption. In a special section dedicated to corruption in HIV/AIDS, the report warns that the large sums being poured into fighting the world's deadliest diseases need to be safeguarded against abuse. There is also a detailed analysis of the problems of the pharmaceutical system.The report also offers an annual round-up of worldwide developments and tracks major trends in more than 40 countries.The Global Corruption Report 2006 is the only report of its kind, and is an essential reference source for anyone who wants the latest research on how corruption affects everything from health to education and the oil and gas industries.
