**The Love** Soborno Isaac Bari, 2019-03-15 The Love is a book about Soborno Isaac Bari, a four-year-old Muslim child who launched a campaign to create a world without terrorism. The book is divided into two parts: (1) Soborno's fight with Imams to change their perception on non-Muslims and (2) his fights with Muslim Americans to denounce terrorism and be patriotic. Millions of people joined his campaign across the world—especially people in Bangladesh where two young Muslim students, Sadiyan Lima (Dhaka University) and Marjia Farzana (Jahangirnagar University), led the movement on behalf of their respective universities. It inspired many people, including Zahid Hossain and Safir Biplob and his son, to stand against the terror of the Islamic State. Zahid published Soborno's biography, while Safir and his son went to 64,000 villages in Bangladesh posting 64,000 posters. Meanwhile, Uday Bengali made a documentary, I Love Christmas, which created an anti-terrorism movement around Bangladesh that is based on the philosophy of Soborno.

*The Bullet and the Ballot Box* Aditya Adhikari, 2014-10-07 The Bullet and the Ballot Box offers a rich and sweeping account of a decade of revolutionary upheaval. When Nepal's Maoists launched their armed rebellion in the nineties, they had limited public support and many argued that their ideology was obsolete. Twelve years later they were in power, and their ambitious plan of social transformation dominated the national agenda. How did this become possible? Adhikari's narrative draws on a broad range of sources - including novels, letters and diaries - to illuminate the history and human drama of the Maoist revolution. An indispensable account of Nepal's recent history, the book offers a fascinating case study of

how communist ideology has been reinterpreted and translated into political action in the twenty-first century.

*Indian Mujahideen* Shishir Gupta,2012-03-12 Recent acts of terror have exploded the myth that Indian youth is insulated from the global terrorism phenomenon and had little time for extremism. The communal riots post the 1992 incident, the rise of the Students Islamic Movement of India (SIMI) and the mutation of a section of aspiring Muslim youth into terrorists with the help of forces across the border. The story of home-grown jihadists would have been skewed had it not been for the testimonies of David Coleman Headley and Sarfaraz Nawaz on the involvement of the Pakistan Inter-Services Intelligence, top Lashkar-e-Taiba leadership, the Al Qaida and the Karachi project, whose demon child the Indian Mujahideen is. This book is the first-ever attempt to link up jihadists all over India and trace their linkages with terrorists based in countries like Pakistan, Nepal, Sri Lanka, Bangladesh, United Arab Emirates, Oman, Yemen and Saudi Arabia.

**Ethnobotany of the Himalayas** Ripu M. Kunwar,Hassan Sher,Rainer W. Bussmann,2021-07-29 Research in recent years has increasingly shifted away from purely academic research, and into applied aspects of the discipline, including climate change research, conservation, and sustainable development. It has by now widely been recognized that “traditional” knowledge is always in flux and adapting to a quickly changing environment. Trends of globalization, especially the globalization of plant markets, have greatly influenced how plant resources are managed nowadays. While ethnobotanical studies are now available from many regions of the world, no comprehensive encyclopedic series focusing on the worlds mountain regions is available in the market. Scholars in plant sciences worldwide will be interested in this website and its dynamic content. The field (and thus the market) of ethnobotany and ethnopharmacology has grown considerably in recent years. Student interest is on the rise, attendance at professional conferences has grown steadily, and the number of professionals calling themselves ethnobotanists has increased significantly (the various societies, like the Society for Economic Botany, the International Society of Ethnopharmacology, the Society of Ethnobiology, and the International Society for Ethnobiology currently have thousands of members). Growth has been most robust in BRIC countries. This new MRW on Ethnobotany of the Himalayas takes advantage of the increasing international interest and scholarship in the field of mountain research. It includes the best and latest research on a full range of descriptive, methodological, theoretical, and applied research on the most important plants in the Himalayas. Each contribution is scientifically rigorous and contributes to the overall field of study.

*Presidential Legislation in India* Shubhankar Dam,2014 The legislative process in India's parliamentary system, like elsewhere, is a shared exercise: the executive and the legislature partake in it. Ordinarily, proposals for legislation originate in the cabinet. If the cabinet decides that a law is necessary, a bill is drafted, on occasions, with external inputs. After it is introduced in the two houses, the bill goes through several 'readings', committee hearings and amendments. The final draft is debated and voted on. If a bill secures the requisite majority in both houses, it is sent to the president for assent, upon which

the bill becomes an Act. Parliament, in this formal view, is central to the legislative process, and legislation are products of among other things a rational-legal scrutiny and vote. In practice, parliament is less than central; the legislative process rarely confirms to the constitutional ideal type. Take, for example, political parties and their influence on the legislative process. The party to which a government belongs can have adisproportionate say in policy and legislative matters. Indeed, depending on the personalities involved, legislative proposals may even originate and take shape in party headquarters. Or consider a coalition government. A cabinet's decision to introduce a bill may be evidence of compulsion, not necessity. It may be a price for keeping the coalition together or a political maneuvering to secure new allies. Also, consider the influence of non-representative actors and their ability to direct legislative proposals--

**Global Health Diplomacy** Ilona Kickbusch,Graham Lister,Michaela Told,Nick Drager,2012-12-09 The world's problems are indeed world problems: social and environmental crises, global trade and politics, and major epidemics are making public health a pressing global concern. From this constantly changing scenario, global health diplomacy has evolved, at the intersection of public health, international relations, law, economics, and management—a new discipline with transformative potential. Global Health Diplomacy situates this concept firmly within the human rights dialogue and provides a solid framework for understanding global health issues and their negotiation. This up-to-the-minute guide sets out defining principles and the current agenda of the field, and examines key relationships such as between trade and health diplomacy, and between global health and environmental issues. The processes of global governance are detailed as the UN, WHO, and other multinational actors work to address health inequalities among the world's peoples. And to ensure maximum usefulness, the text includes plentiful examples, discussion questions, reading lists, and a glossary. Featured topics include: The legal basis of global health agreements and negotiations. Global public goods as a foundation for global health diplomacy. Global health: a human security perspective. Health issues and foreign policy at the UN. National strategies for global health. South-south cooperation and other new models of development. A volume of immediate utility with a potent vision for the future, Global Health Diplomacy is an essential text for public health experts and diplomats as well as schools of public health and international affairs.

**Image and Signal Processing** Abderrahim El Moataz,Driss Mammass,Alamin Mansouri,Fathallah Nouboud,2020-07-08 This volume constitutes the refereed proceedings of the 9th International Conference on Image and Signal Processing, ICISP 2020, which was due to be held in Marrakesh, Morocco, in June 2020. **Battles of the New Republic** Prashant Jha,2014-01-12 Battles of the New Republic: A Contemporary History of Nepal is a story of Nepal's transformation from war to peace, monarchy to republic, a Hindu kingdom to a secular state, and a unitary to a potentially federal state. Part-reportage, part-history, part-analysis, part-memoir, and part-biography of the key characters, the book breaks new ground in political writing from the region. With access to the most powerful leaders in the country as well as diplomats, it gives an unprecedented glimpse into Kathmandu's high politics. But this is coupled with ground-level reportage on the lives of ordinary citizens of the hills and the plains, striving for a democratic, just and equitable society. It tracks the hard grind of political negotiations at the heart of the instability in Nepal. It traces the rise of a popular rebellion, its integration into the mainstream, and its steady decline. It investigates Nepal's status as a partly-sovereign country, and reveals India's overwhelming role. It examines the angst of having to prove one's loyalties to one's own country, and exposes the Hindu hill upper-caste dominated power structures. Battles of the New Republic is a story of the deepening of democracy, of the death of a dream, and of that fundamental political dilemma - who exercises power, to what end, and for whose benefit.

**Groundwater Recharge from Run-off, Infiltration and Percolation** K.-P. Seiler,J.R. Gat,2007-09-26 To face the threats to the water supply and to maintain sustainable water management policies, detailed knowledge is needed on the surface-to-subsurface transformation link in the water cycle. Recharge flux is covered in this book as well as many other groundwater issues, including a comparison of the traditional and modern approaches to determine groundwater recharge. The authors also explain in detail the fate of groundwater recharge in the subsurface by hydraulic and geologic means, in order to stimulate adapted groundwater-management strategies.

*Maoism* Julia Lovell, 2019-09-03 \*\*\* WINNER OF THE 2019 CUNDILL HISTORY PRIZE SHORTLISTED FOR THE BAILLIE GIFFORD PRIZE FOR NON-FICTION 2019 SHORTLISTED FOR THE NAYEF AL-RODHAN PRIZE FOR GLOBAL UNDERSTANDING SHORTLISTED FOR DEUTSCHER PRIZE LONGLISTED FOR THE 2020 ORWELL PRIZE FOR POLITICAL WRITING\*\*\* 'Revelatory and instructive... [a] beautifully written and accessible book' The Times For decades, the West has dismissed Maoism as an outdated historical and political phenomenon. Since the 1980s, China seems to have abandoned the utopian turmoil of Mao's revolution in favour of authoritarian capitalism. But Mao and his ideas remain central to the People's Republic and the legitimacy of its Communist government. With disagreements and conflicts between China and the West on the rise, the need to understand the political legacy of Mao is urgent and growing. The power and appeal of Maoism have extended far beyond China. Maoism was a crucial motor of the Cold War: it shaped the course of the Vietnam War (and the international youth rebellions that conflict triggered) and brought to power the murderous Khmer Rouge in Cambodia; it aided, and sometimes handed victory to, anti-colonial resistance movements in Africa; it inspired terrorism in Germany and Italy, and wars and insurgencies in Peru, India and Nepal, some of which are still with us today - more than forty years after the death of Mao. In this new history, Julia Lovell re-evaluates Maoism as both a Chinese and an international force, linking its evolution in China with its global legacy. It is a story that takes us from the tea plantations of north India to the sierras of the Andes, from Paris's fifth arrondissement to the fields of Tanzania, from the rice paddies of Cambodia to the terraces of Brixton. Starting with the birth of Mao's revolution in northwest China in the 1930s and concluding with its violent afterlives in South Asia and resurgence in the People's Republic today, this is a landmark history of global Maoism.

*The Nepal Nexus* Sudheer Sharma, 2019-10-03 This fast-paced and comprehensive account of Nepal today traces the recent past and the present of Nepali politics and geopolitics from the vantage point of an insider who had a ringside view of the developments of the last two decades. This was a turbulent, eventful era which had a transformative impact on the country. In this short span, Nepal experienced the Maoist revolt, the palace massacre, the state of emergency, the royal coup, the people's movement, the republic, the Madhes uprising, the Constituent Assembly, federalism and the new Constitution. Looking back at these developments, Sudheer Sharma argues that poverty, unemployment and oppression drove the Maoist revolt, and despite its ultimate failure, it played a decisive role in the socio-political transformation of Nepal. Furthermore, the relationship between the Maoists, the monarchy (Durbar) and the Indian establishment (Delhi) is absolutely critical to the understanding of the trajectory of the changes. The *Nepal Nexus* examines the impact of each of these three strands and tracks the complex interplay between them.

*To Kill A Democracy* Debasish Roy Chowdhury, John Keane, 2021-06-24 India is heralded as the world's largest democracy. Yet, there is now growing alarm about its democratic health. *To Kill a Democracy* gets to the heart of the matter. Combining poignant life stories with sharp scholarly insight, it rejects the belief that India was once a beacon of democracy

but is now being ruined by the destructive forces of Modi-style populism. The book details the much deeper historical roots of the present-day assaults on civil liberties and democratic institutions. Democracy, the authors also argue, is much more than elections and the separation of powers. It is a whole way of life lived in dignity, and that is why they pay special attention to the decaying social foundations of Indian democracy. In compelling fashion, the book describes daily struggles for survival and explains how lived social injustices and unfreedoms rob Indian elections of their meaning, while at the same time feeding the decadence and iron-fisted rule of its governing institutions. Much more than a book about India, *To Kill A Democracy* argues that what is happening in the country is globally important, and not just because every third person living in a democracy is an Indian. It shows that when democracies rack and ruin their social foundations, they don't just kill off the spirit and substance of democracy. They lay the foundations for despotism.

Earth Observation Science and Applications for Risk Reduction and Enhanced Resilience in Hindu Kush Himalaya Region  
Birendra Bajracharya, Rajesh Bahadur Thapa, Mir A. Matin, 2021-08-14 This open access book is a consolidation of lessons learnt and experiences gathered from our efforts to utilise Earth observation (EO) science and applications to address environmental challenges in the Hindu Kush Himalayan region. It includes a complete package of knowledge on service life cycles including multi-disciplinary topics and practically tested applications for the HKH. It comprises 19 chapters drawing from a decade's worth of experience gleaned over the course of our implementation of SERVIR-HKH - a joint initiative of NASA, USAID, and ICIMOD - to build capacity on using EO and geospatial technology for effective decision making in the region. The book highlights SERVIR's approaches to the design and delivery of information services - in agriculture and food security; land cover and land use change, and ecosystems; water resources and hydro-climatic disasters; and weather and climate services. It also touches upon multidisciplinary topics such as service planning; gender integration; user engagement; capacity building; communication; and monitoring, evaluation, and learning. We hope that this book will be a good reference document for professionals and practitioners working in remote sensing, geographic information systems, regional and spatial sciences, climate change, ecosystems, and environmental analysis. Furthermore, we are hopeful that policymakers, academics, and other informed audiences working in sustainable development and evaluation - beyond the wider SERVIR network and well as within it - will greatly benefit from what we share here on our applications, case studies, and documentation across cross-cutting topics.

*Backfire in Nepal* Sanjay Upadhyaya, 2021 *Backfire in Nepal* explores how China has become the ultimate beneficiary of India's democracy-promotion agenda in Nepal. New Delhi had made a bold bet in 2005, but one that contained two mutually fortifying flaws: the abolition of the monarchy and the empowerment of the former Maoist rebels. The world's only Hindu monarch and kingdom were bound to India in a special relationship that neither country needed to define or assert. True, Indians had been put off by successive Nepalese monarchs playing New Delhi off against Beijing. In retrospect, a little more

compassion for Nepal's compulsions might have put things into sharper relief. Nepalese Maoists, being communists first, were trained to denounce Indian 'expansionism' before American 'imperialism'. Experience may have impelled the senior leadership to make practical compromises. It was a leap of faith for New Delhi to trust the leadership to rein in their cadres' radicalism. More broadly, since India had also enlisted Western democracies, it needed to address their often-contradictory concerns throughout Nepal's turbulent transition.
